* The mean population for the year is obtained as follows:—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

PART IV.—INTERCHANGE.

I.—TRADE AND CUSTOMS FOR THE YEAR 1931-32.

It should be noted in the tables dealing with Trade which follow that Merchandise Imported from Abroad is recorded in terms of British Currency, whilst all other values (including Gold Exports formerly expressed in British Currency are expressed in terms of Australian Currency. In view of the abnormal conditions ruling throughout the year under review it has been deemed advisable to prepare a Special Summary Table No. 9) showing the Estimated Balance of Trade after all values have been reduced to approximate terms of Australian Currency, and allowance has been made for Gold in excess of current production shipped abroad. The summary may be found on page 98.

No. 9.—Summary of Western Australian Trade, Year ended 30th June, 1932.

In the Summary hereunder, Exchange is added to the declared value of Oversea Imports, thus expressing the latter in terms of *Australian* Currency in common with all other declared values.

A deduction is also made on account of Gold shipped in excess of Current Production, so that only Gold won during the year under review is credited in arriving at the *Net Visible Balance of Trade* for the year.

No. 35.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board, and bulk cargo by the Stevedores, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred.

NOTE.—In addition to the above figures the following particulars were also obtained:—Acreage Planted Forest Trees, 2,334 acres; Lands farmed on the "Share System"· For Cultivation, 67,155 acres, and Dairying, 697 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past eight years of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

No. 1.—Classified numbers of Industrial Establishments (exclusive of Mines) from which Returns were received under the provisions of "The Statistics Act, 1907," and numbers of Males and Females employed during the years 1930–31 and 1931–32.
